Keep Track of Your Medicines

Visit us online: www.bethanyhealthcare.com

As you get older you may be faced with more health conditions that you need to treat on a regular basis. It is important to be aware that more use of medicines and normal body changes caused by aging can increase the chance of unwanted or maybe even harmful drug interactions. The more you know about your medicines and the more you talk with your healthcare professionals, the easier it is to avoid problems with medicines.

Allergies to medications: _____

_____

Drug Name	What it's for	Form (pill/gel)	How often	When	Strength
